To Whom it May Concern:

The NYS Department of Agriculture & Markets and the United States Department of Agriculture have established parallel quarantines within specific areas of *Nassau, Suffolk, Queens, Kings* and *New York* counties (see attached maps) to control and limit the spread of the Asian Longhorned Beetle.

These quarantines regulate the movement and disposal of all host susceptible wood debris from all properties, and require that all persons who wish to do any work involving tree trimming, removal, disposal, sales or land clearing, comply with the terms of Part 139 of the Agriculture & Markets Law addressing the Asian Longhorned Beetle.

All activities, which are performed inside of these quarantine areas, must be supervised by state or federal inspectors or performed under compliance agreements.

Additional information on the Asian Longhorned Beetle Quarantine and how it may affect you can be obtained by writing:

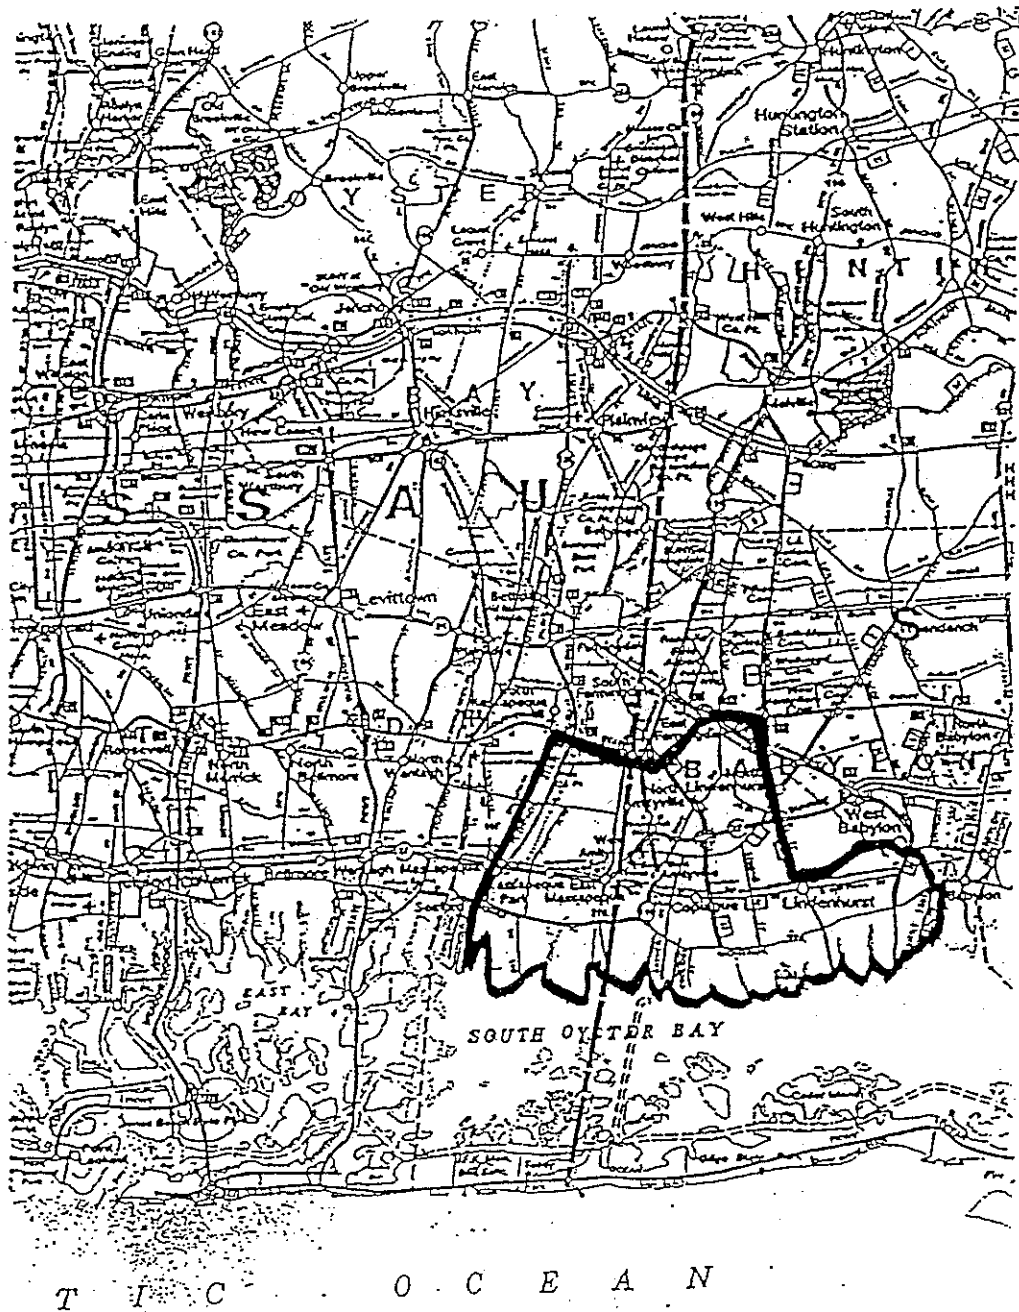

New York State Department of Agriculture and Markets
4 Stewart Ave.
West Hampton Beach, NY 11978

or by calling 631-288-1751.

APPENDIX B
