Residents Gather at Village Survey Session to Share Ideas

A big *thank you* to the many residents who attended our interactive Village Planning Survey Presentation on Saturday, February 29th, 2020, at the Amityville Firehouse to hear planning consultant Sean Ansanelli present survey respondents' impressions and ideas about Amityville's downtown and the Village as a whole. Several groups of participants brainstormed afterward, and provided their recommendations. We will consider incorporating as many of your suggestions as possible. Check out our interactive planning website for periodic updates and discussions at <https://www.makeithappen.city/amityville>.

The group discussed a variety of opportunities for enhanced shopping, dining, arts & entertainment, recreation and parking as well as environmental concerns for improving the Village.

“THIS IS AN EXCITING TIME AS WE EXPLORE AND PLAN FOR SMART GROWTH IN OUR FRIENDLY BAY VILLAGE.”

Mayor Dennis M. Siry
